

Turn home working into home learning and qualifying!

Safety within an organization is serious and often complex. Add on training your employees how to do their job safely and things only get more complicated. This is why you need a partner like ITAC Safety who cares about your company's workplace safety as much as you do.

The 4 step 'Qualify at Home' suite

E-learning - award winning, instantly available, accessible anywhere.

E-assessment - regulated assessments on your computer.

E-certification - verifiable online by Checkcert.
